Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

In response to remarks filed 8/22/2007, Claims 38-41, 44-51, 54-61, and 64-70 are pending in this application.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 38-41, 44-46, 48-51, 54-56, 58-61, and 64-66, and 68-70 are rejected under 35 U.S.C. 102(b) as being anticipated by Eisendrath et al. (US 6,347,333).

This holding, incorporated herein, is maintained from the prior action for the cited claims. Response to the applicant's remarks is provided below.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.

Art Unit: 3714

4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 47, 57, and 67 are rejected under 35 U.S.C. 103(a) as being unpatentable over Eisendrath et al. in view of Linderman (US 2002/0032790).

This holding, incorporated herein, is maintained from the prior action for the cited claims.

Response to the applicant's remarks is provided below.

Response to Arguments

Applicant's arguments filed 8/22/2007 have been fully considered but they are not persuasive. Applicant argues that Eisendrath does not teach or suggest the claimed feature of "receiving, by a server, metadata for a course catalog from the external system. It is applicant's position that the user of Eisendrath is a client and not a server. The examiner disagrees. Eisendrath discloses a co-host server 204 serves course content that is received from external system 250. See Col. 5, lines 50-58; Fig. 2.

Applicant additionally emphasizes that Eisendrath does not teach or suggest "receiving a response to the track command, wherein the response comprises at least two of: a percentage of material from the at least one selected course that has been viewed by the user, a test score associated with the material from the at least one selected course, and an amount of time spent viewing material in the at least one electronic course by the user. The examiner disagrees. Eisendrath discloses at least the features of receiving a response to a track command, wherein the responses comprises: the amount of time spent viewing material (See Col.9, lines 36-52) and a test score associated with the material of a course (See Col. 8, lines 31-52).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cameron Saadat whose telephone number is (571) 272-4443. The examiner can normally be reached on M-F 9:00 - 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert E. Pezzuto can be reached on (571) 272-6996. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
